

Presented by the BYU Alumni Kansas City Chapter

Dinner, Speaker & Silent Auction

Scott C. Steffensen

Associate professor, BYU Department of Psychology and Neuroscience Center

We are Spiritual Beings Having a Physical Experience

Scott C. Steffensen

is an associate professor for BYU's Department of psychology and the associate director for the Center for Neuroscience. His research focuses on the neurobiology of addiction. He utilizes electrophysiological, neurochemical, and behavioral approaches to study neuroadaptations in brain substrates during alcohol and nicotine dependence and codependence. He has a BS and PhD from the University of Utah.

Join us for a great night of food, intellectual stimulation and silent auction.
